SeungMin Lee

Salesforce Developer at Qualtrics
Vineyard, Utah, United States

Experience

Qualtrics
6 years 10 months

Salesforce Developer
March 2022 - Present (4 years 6 months)
Provo, UT

Core developer and maintainer for large scale Salesforce CPQ migration.
Developed and maintained complex QCP (Quote Calculator Plugin) custom JavaScript pricing logic, exceeding standard functionality.
Led technical initiative to reduce manual intervention by 75% in ACV and Quota Relief data
Partnered closely with stakeholders to translate business requirements into technical requirements that could be implemented in a scalable manner

Software Test Engineer
March 2021 - Present (5 years 6 months)
Provo, Utah, United States

Testing Internal Salesforce Instance
Building automated regression testing

Product Specialist
November 2019 - March 2021 (1 year 5 months)
Provo, Utah

Georgia Institute of Technology
3 years 2 months

Undergraduate Researcher in Laboratory of Micromechanics of Materials (LMM)
May 2018 - November 2019 (1 year 7 months)
Atlanta, Georgia

- Designed method of growing carbon nanotubes on thin films for enhanced conductivity and strength
- Produced titania nanoparticles for thin films for antibacterial properties on glass windows
- Used DC sputtering tool for physical vapor deposition

Undergraduate Student Researcher in Computational NanoBio Tech (CNBT) Lab

October 2016 - November 2019 (3 years 2 months)

Atlanta, Georgia

- Investigated micelle and polymer miscibility with molecular dynamic simulations for the Department of Energy
- Presented reactant transport through micelles at poster session at AICHE conference
- Published 4 papers with one first author credit
- Studied transport of reactants with dissipative particle dynamics
- Trained and led team of junior students on research equipment and techniques
- Wrote technical manuals for future students to follow

Undergraduate Teaching Assistant

January 2018 - April 2018 (4 months)

Atlanta, Georiga

- Assisted instructor in evaluation and feedback for course assignments
- Held office hours to provide additional instruction and feedback to students

Varsity Tutors

Physics and Math Tutor

November 2016 - December 2017 (1 year 2 months)

- Customized instructional approaches to meet academic needs of up to 20 clients
- Tutored in math, physics, chemistry with focus on standardized test preparation
- Maintained high satisfaction from students, parents, and supervisors

---

Education

Georgia Institute of Technology

Bachelor's degree, Material Science and Engineering · (2015 - 2019)
