My Learnings

What I learned this quarter	What actions have I taken/will take related to this learning
Salesforce Best Practices around OOTB CPQ	This quarter, I created nearly three times as many Salesforce cases compared Through these extended case conversations, I gained tailored advice that bet Salesforce CPQ's out-of-the-box functionality rather than relying on custom s our level of customization.
Value of Good Tech Design	During the recent quarter, I dedicated additional time to technical design for ti This investment has enabled other developers to work more independently or tickets. As a result, our team is now relying less on my input for ACV/QR issues developing these solutions with minimal intervention from me. This shift has a attention on other projects.

My Career Goals (Set 2-3 goals for the upcoming quarter)

What I want to accomplish	How I plan to accomplish it	Status	Quarter
Complete Training and Shadowing for Interviewing	Allocate some time at the end of sprints and make sure Ethan is aware that I am ready to do shadowing for interviews.	Done	Q1 2025 Q2 2025

Improve Documentation	Automation documentation is a very iterative process that takes a long time to do and it is hard to maintain, especially given our team's speed of development. I would like to work on strategizing documentation for my parts of Deloitte Implementation and continue work on the ACV/QR documentation.	In progress	Q1 2025 Q2 2025
